

# The Second Floral and Nursery Crops Researchers Workshop

June 12-15, 2006

Doubletree Hotel and Executive  
Meeting Center – Lloyd Center  
Portland, Oregon

Presented by the  
USDA Agricultural Research Service,  
the American Nursery and Landscape  
Association, and  
the Society of American Florists

The background of the slide is a light green color with a collage of various botanical illustrations and photographs. In the top right corner, there is a photograph of a red flower. Below it, on the right side, is a photograph of a dark red, tubular flower. In the bottom right corner, there is a photograph of a green, succulent-like plant with thick, pointed leaves. On the left side, there are several botanical illustrations, including a green plant with long, narrow leaves and a small yellow flower, and a purple flower with a long, curved stem. The text is centered on the slide.
